It can be read in just 45 minutes. It's been my experience that graduating seniors are tired of reading. However, I've been SO IMPRESSED by this book that it's the graduation gift I've been giving for at least 25 years. I tell the recipient how powerful it is how quickly they can read it I even ask them to read it, at LEAST once. I've had the students even their parents tell me how impressed they were with 'Your Greatest Power'. 2 of 2 people found the following review helpful. Five Stars By William James Taylor Amazing book easy to read and understand. 2 of 2 people found the following review helpful. Your Ability To Choose By Annette E Antaya The ability to choose in your life is a welcome sign. Your life can be wonderful if you choose the right way to go and this can only be done if you know what you want to do with your life. Unfortunately, some people are not taught this when growing up and it is such a relief when you finally realize where you could have gone with your life if you had known the concept of choosing. The best thing is that it is never too late to get there. Great Book to read and to point yourself in the right direction to get where you want to go. John
